

alwaysAI Partners with Industry Leaders to Drive AI Innovation in Mining and Beyond

September 25, 2024

Collaboration to develop cutting-edge computer vision solutions

SAN DIEGO, September 25, 2024 /PRNewswire/ — Vision AI is rapidly becoming a must-have for key industries across the globe. alwaysAI, a pioneer in Vision AI technology, is proud to announce several strategic collaborations with industry leaders, including Cognizant, Becker Mining Systems, Instituto De Ingenieros De Minas Del Perú (IIMP), MAC Distribución, Servicios y Proyectos Mineros de Mexico, Blaize, Eagle Eye Networks, and VSA Capital. These collaborative efforts aim to bring cutting-edge computer vision solutions to enhance productivity, safety, and efficiency.

Visionary Partnerships and Collaborations for a Transformative Future

alwaysAI's state-of-the-art Vision AI technology is set to redefine industry standards across mining, manufacturing, and other critical sectors. By harnessing the power of AI, these collaborations will unlock new levels of operational excellence and innovative capabilities.

Cognizant brings its deep expertise in digital transformation to the table. "Our partnership with alwaysAI will accelerate the adoption of AI-driven insights across multiple domains, enhancing decision-making and operational agility," noted **Sushant Warikoo, SVP & Business Unit Head Retail of Cognizant**.

Enhancing Safety and Efficiency in Mining

Becker Mining Systems sees immense potential in applying Vision AI to underground mining operations. "The ability to monitor and analyze conditions in real-time will significantly improve safety and productivity in mining operations," stated **Prof. Dr. Wolfgang Wegener, Co-Chief Executive Officer of Becker Mining Systems AG**.

"**Instituto De Ingenieros De Minas Del Perú (IIMP)**, with over 76 years of contributions to the mining sector, sees alwaysAI's Vision AI as a transformative force for the Peruvian mining industry," said Carlos Diez Canseco, General Manager of IIMP. "Our mission is to provide our members with innovative ideas and practical applications of AI in mining. By forging collaborative partnerships with top-tier experts, we bring state-of-the-art technology into Peru. We plan to host a series of workshops with various mining companies and entities, introducing alwaysAI's world-class expertise in Vision AI to enhance operations, health, and safety. This educational initiative ensures that the Peruvian mining industry remains at the forefront of innovation, benefiting from globally recognized leaders in computer vision for mining."

Alejandra Arenas Tapia and PGeo. Ramón Hiram Luna Espinoza bring unparalleled expertise and connections within the mining sector. "Our collaboration with alwaysAI enables us to introduce cutting-edge Vision AI solutions to key industry players, significantly enhancing safety standards in mining through real-time monitoring," said Alejandra Arenas Tapia, Gerente de Mercadotecnia at MAC Distribución. "With alwaysAI's technology, we are positioned to transform mining productivity by optimizing operations, boosting efficiency, and streamlining processes," added PGeo. Ramón Hiram Luna Espinoza, President and Founder of Servicios y Proyectos Mineros de Mexico. "We are excited to be part of this revolutionary shift in mining technology."

Innovative Hardware and Video Solutions

Blaize, a provider of purpose-built, AI-enabled edge computing solutions, sees the integration as a significant step. "We are excited about our collaboration, which will focus on integrating alwaysAI's computer vision technology and remote deployment capabilities with Blaize's cutting-edge graph streaming processor and edge devices, making seamless edge deployments more accessible for enterprises worldwide," stated **Dinakar Munagala, CEO of Blaize**.

Eagle Eye Networks, a global leader in cloud video surveillance, believes AI can help businesses optimize security and operations. **Tijmen Vos, Eagle Eye Networks VP of Product Management** said, "The integration of alwaysAI's Vision AI to the Eagle Eye Cloud VMS will bring new real-time monitoring, customizable analytics, and actionable insights to business customers that will enhance productivity, security, operational efficiency, and ROI."

A Unified Vision for the Future

"**VSA Capital** views Vision AI as a transformative technology, particularly in sectors like mining and energy, where real-time data

analysis can significantly enhance safety, efficiency, and operational performance. This will be a game-changer for businesses operating in these critical areas. The fact that it will increase revenues significantly ahead of any costs makes it a compelling technology for any company,” stated **Andrew Monk, CEO of VSA Capital**.

“**alwaysAI** is thrilled to collaborate with such visionary leaders across various industries,” said **Marty Beard, Co-Founder and CEO of alwaysAI**. “Together, we will drive the adoption of Vision AI to create smarter, safer, and more efficient operations. This is just the beginning of a transformative journey.”

These partnerships and collaborations mark a significant milestone for alwaysAI as it continues to lead the way in AI innovation, empowering industries with advanced technology to meet the challenges of tomorrow.

About alwaysAI®

alwaysAI® offers world-class, customizable computer vision solutions that provide the real-time, actionable data needed to help businesses across all industries improve their operations. We help you work smarter. For more information, [schedule a meeting with an AI Expert](#).

About Cognizant

Cognizant (Nasdaq: [CTSH](#)) engineers modern businesses. As one of the world's largest professional services companies, we help clients modernize technology, reimagine processes, and transform experiences so they can stay ahead in our fast-changing world. Together, we're improving everyday life. See how at www.cognizant.com or follow us [@Cognizant](#).

About Becker Mining Systems

Becker Mining Systems is the only worldwide supplier of complete energy, automation, communication, transportation and infrastructure technology for the mining industry. It is one of the technology leaders in its markets. The products can be used in all mining operations, and fulfill even the highest demands for use in explosive atmospheres.

About Instituto De Ingenieros De Minas Del Perú (IIMP)

The Instituto de Ingenieros de Minas del Perú (IIMP) is a prominent organization within Peru's mining sector. Its mission is to contribute to the professional growth of its members through the dissemination of high-level academic knowledge, technological innovation, and the promotion of responsible practices that strengthen the mining industry in Peru. The IIMP is recognized for organizing significant events, such as PERUMIN, one of the largest mining conventions in Latin America.

About MAC Distribución

MAC Distribución is a leading provider of promotional products and customized textiles, with over 20 years of experience supporting brands in Mexico. With a strong focus on the mining industry, MAC Distribución has built lasting relationships by delivering high-quality, durable products tailored to meet the unique needs of mining companies. From safety gear and branded apparel to promotional items that enhance visibility and morale, MAC Distribución understands the demands of the mining sector and offers solutions that help businesses strengthen their brand presence, motivate their teams, and promote operational success.

About Servicios y Proyectos Mineros de Mexico

Servicios y Proyectos Mineros de México (SPM) is a prominent provider of high-quality exploration and mining services in Mexico. Known for their technical reliability, SPM integrates experienced professionals with a strong commitment to honesty and excellence. Established to meet the growing demands of the mining and geology sectors, the company consistently adheres to Mexican regulations while delivering comprehensive solutions. SPM's mission is to become the leading exploration partner in Mexico, helping to advance the mining industry to world-class standards.

About Blaize®

Blaize® provides a full-stack programmable processor architecture suite and low-code/no-code software platform that enables AI processing solutions for high-performance computing at the network's edge and in the data center. Blaize solutions deliver real-time insights and decision-making capabilities at low power consumption, high efficiency, minimal size, and low cost. Blaize has raised over \$330 million from strategic investors such as DENSO, Mercedes-Benz AG, Magna, and Samsung and financial investors such as Franklin Templeton, Temasek, GGV, Bess Ventures, BurTech LP LLC, Rizvi Traverse, and Ava Investors. Headquartered in El Dorado Hills (CA), Blaize has more than 200 employees worldwide with teams in San Jose (CA), Cary (NC), and subsidiaries in Hyderabad (India), Leeds and Kings Langley (UK), and Abu Dhabi (UAE).

About Eagle Eye Networks

Eagle Eye Networks is the global leader in cloud video surveillance, delivering cyber-secure, cloud-based video with artificial intelligence (AI) and analytics to make businesses more efficient and the world a safer place. Businesses of all sizes utilize the Eagle Eye Cloud VMS (video management system) to centralize their video surveillance and obtain better security and operations. Purpose-built for the cloud and AI, the Eagle Eye Cloud VMS addresses customers' security and operational needs with unlimited scalability, simple usage-based subscription pricing, advanced analytics, integrated AI, and an open RESTful API platform delivering flexibility. Eagle Eye sells through a global network of resellers and integrators. Founded in 2012, Eagle Eye is headquartered in Austin, Texas, with offices in Amsterdam, Bangalore, and Tokyo. Learn more at <https://www.een.com>.

About VSA Capital

VSA Capital is an international investment banking and broking firm that provides corporate finance, advisory, and capital markets

services to private and public growth companies. With a focus on natural resources, transitional energy, alternative energy, and technology, media, and telecommunications (TMT), VSA Capital has built deep relationships worldwide, particularly in Asia and Africa, with a strong understanding of the cultural nuances of conducting business in these regions. As an early leader in transitional energy, the firm offers leading expertise in executing capital markets strategies across the full battery storage supply chain.
