

## **Blaize, Inc. and BurTech Acquisition Corp. Announce Closing of Business Combination**

January 13, 2025

WASHINGTON & EL DORADO HILLS, Calif.--(BUSINESS WIRE)--BurTech Acquisition Corp. ("BurTech") (NASDAQ: BRKH), a publicly-traded special purpose acquisition company, and Blaize, Inc. ("Blaize"), a provider of purpose-built, artificial intelligence ("AI")-enabled edge computing solutions, today announced the completion of their previously announced business combination (the "Business Combination"). The combined company will operate under the name Blaize Holdings, Inc. and begin trading on Nasdaq under the ticker symbols "BZAI" and "BZAIW" on January 14, 2025. The Business Combination, approved at a special meeting of BurTech shareholders on December 23, 2024, begins a new period in Blaize's growth in bringing artificial intelligence to the edge.

The Business Combination marks a major milestone for Blaize as it continues building its transformative new compute solution that unites silicon and software to optimize AI from the edge to the core. Blaize has strong traction with over \$400 million in a qualified pipeline of prospective customers it expects to engage in 2025 and a global footprint with Tier 1 supply chain relationships.

"Today is an exciting milestone on Blaize's journey of powering the next generation of computing," said Dinakar Munagala, CEO of Blaize. "AI-powered edge computing is the future due to its low power consumption, low latency, cost-effectiveness and data privacy advantages. Blaize is well-positioned with our full-stack hardware and software solution purpose-built for edge computing."

"We are pleased to announce the successful completion of our merger, marking a significant milestone in bringing value for our shareholders," said Shahal Khan, CEO and chairman of BurTech. "AI-powered edge computing is redefining what is possible across a broad range of sectors, from security and monitoring to enterprise edge AI to autonomous systems. We're so thrilled to partner with Blaize as it delivers the next generation of computing."
